The Fing's place is taken by the person and the reason by the klow. The grant of 1892 is the pigmy of to-day like same whitney who swong the Demoracy of the antion four livears ago, who had fammany in the leaks and ban hed the katt snappers with a wave of the hand who is deep the convention, "Lake this man, and he was taken, and to the people" elect this man," ind he was taken, and to the people "elect this man," ind he was caken, and to the people "elect this man," and he was taken, and to the people "elect this man," and he was taken and stands on the outer fringe a political mendicant in the eyes of the victorious Populist allyerites of the South and West.

Aging the same correspondent write Ag no the same correspondent write

Ag in the same correspondent write It has seen remarked maint times to day that Mr Whitney a secretion at the hinds of the Populist and free silver Democrats shows ingratitude on their part. It was Mr Whitney, as the manager of the Democratic campaign in 1892, who made the a hance with the Pipulists in Western Settles which enabled the Populists to claim a large share of the credit of Cleveland's election. Nor, to all intents and purposes, the Populists blue swallowed the Democratic party. Here we have a complete illustration. Here we have a complete illustration

of Democracy | lour years ago the con ditions of the country were such that Democratic access seemed impossible I be coun rv was prosperous and the people fully employed at high wages Liery consideration of the public welfare de-manded a continuance of the wife ad-ministration of the affairs of the Govern-ment that had made those conditions a well sounded a guinent touth be nd. Solid Silver and Leather public policy But ou of the de perat on of the Democratic party was born the desperate idea of fusion with the most dangerous elements of political warfare It was ex-Secretary Whitney, who, to the cake of mere political success, closed his eyes to every consideration of National integrity and the com-mon welfare of the people, and organsed the combination that has to day taken complete charge of the party

He sowed the wind and the party is now reaping the legitimate fruits of its dishonest political trickery. As one Chicago delegate expressed it "The viper which we warmed in our bosoms four years ago has come to life and stung us. But the man who starts a fire in the face of a high wind has no reason to be surprised when it gets beyond his control. The Democratic party has persistently created the very situation which a few of its members now deprecate although they were chiefly instromental in bringing it about The Chi.ago convention affords another ob-ect lesson which will not be lost upon-the people in the coming elections. The only safety for the country rests in the success of the Republican party. This is no partisan statement. It is one that in to-day recognized by business men Democrats as well as Republicans. The bence game played by the Democratic party has been in operation a good many years, but the inevitable exposure has at isst overtalien its promoters.

Maine is All Right.

The Democratic prophets in Chicago should get together. John B/ McLean isolate that if the Democrats adopt a free reinege platform McKluley will not be able to carry the State of Maine, as "Mains is carry the colary of manner, as "Mains is not for the gold standard." Colvey Holman (supplies), on the Vey) colled upon Mr. Whitney to place "the Mains, delegation at the Service of the mains. total many come, and le ledermed the an-Berratary that Main-Desingraph had organized on a gold-basis and wave going to early the Scient this and wave going to early the Scient this

Maine has suffered severely from the

That appeal was treated with contempt while other States with a less, pronounced Republican majority received consideration in the final adjustment of the bill. The result is that Maine was hit hard. The half was suffored especially from Candian competition in lumber and agricultural products. The people could not get any consideration from the Democratic committee, but they can and will make heir protest felt this fail.
